

How can you tell I am a turtle?

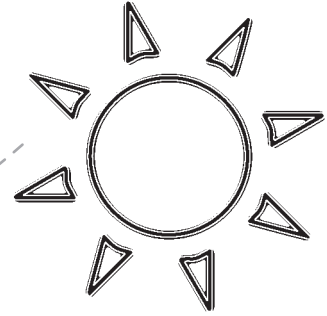

trace the numbers

1

I am a reptile.
That means I am cold-blooded.
I need...

2

...the sun to
warm up my body.

3

I have a shell covered with hard scutes,
like little shields, that protect it. Scutes are made of
keratin just like your fingernails. I can tuck my head
and feet inside my shell to hide. How do you hide?

color me

4

I don't have teeth
but I can still eat. I have
horny ridges, like rough
sandpaper, that help me
grip and grind food.

Collect some rocks.
Little, medium, and big ones.
Draw smiles on them. Pretend
they are turtles. How many can
you stack on top of each other?
What else can you stack?

silly stuff

5

I
have five
claws on each
webbed foot. I
love to swim.
Do you?
